¹⁾ Die Länderbahn DLB and the BRB additionally sell 0-Euro-tickets on their trains with firmly defined relations after the border crossing. These are only valid one-time for inbound travel. The tickets are also valid with the railway companies on the onward journey until the end of the relation. (DB Regio / agilis)

A ticket is only sold, if the passenger (Ukrainian citizen with passport) is onboard the train while crossing the border, or boarding the train at the border station at the latest: The ticket will always be sold to the last possible station of the relation.

The ticket allows the use of the regional trains on the relation until 3am the following day free of charge.

Because DB will offer a ticket solution just from 1 August 22, there will continue to be the Pass = Ticket solution on the relations exclusive to DB-Regio.
